

National Eczema Association

The National Eczema Association (NEA) improves the health and quality of life for individuals with eczema through research, support, and education. NEA is governed by a Board of Directors and guided by a Scientific Advisory Committee comprised of physicians and scientists dedicated to eczema patients and research.

National Eczema Association Seal of Acceptance™ Program

To help improve the quality of life for people with eczema and sensitive skin, the National Eczema Association established the Seal of Acceptance program. If you or someone you care for suffers from eczema or sensitive skin, it can be difficult to know which products are appropriate to use.

The NEA Seal of Acceptance™ helps you choose products that are suitable for the care of eczema or sensitive skin.

Acceptance of a specific product does not represent an endorsement of that product. Acceptance of a product means that the product has been evaluated to determine that it does not contain ingredients or contents that are known to be unsuitable for use by persons with eczema or sensitive skin conditions. NEA makes no representation or warranty regarding any of the accepted products, including without limitation any implied warranties of merchantability or fitness for any particular purpose.

Check the National Eczema Association website for the latest list of Seal of Acceptance products: nationaleczema.org

The National Eczema Association (NEA) improves the health and quality of life for individuals with eczema through research, support, and education. NEA is entirely supported through individual and corporate contributions and is a 501(c)(3) tax-exempt organization. NEA is the only organization in the United States advocating solely for eczema patients.

How products qualify for the NEA Seal of Acceptance™

Manufacturers submit product ingredient information, formulation data, and testing results (sensitivity, safety and toxicity) for scientific review by the National Eczema Association. Products eligible for the NEA Seal of Acceptance™ are those that have been created or intended for use by people with eczema or sensitive skin. The Seal of Acceptance Review Panel consists of experts in dermatology, allergy and pediatrics.

The NEA Seal of Acceptance™ program evaluates products in the following categories:

- Personal Care Products
- OTC Drugs
- Household Products
- Fabric Products

The NEA Seal of Acceptance™ Product Directory

The Product Directory contains a listing of products that have received the NEA Seal of Acceptance™. Further information about Seal of Acceptance products can be found on the NEA website.

Personal Care Products

The importance of proper bathing and moisturizing practices cannot be over-emphasized as a treatment for eczema and sensitive skin. Use of mild, fragrance free, low-pH cleansers are best. Moisturizers maintain skin hydration and barrier function. Generic petroleum jelly and mineral oil (without additives) are two of the most effective moisturizing products.

MOISTURIZERS

- AVEENO® Baby Eczema Therapy Moisturizing Cream

- Exederm™ Shampoo

OTC Drugs

Over-the-counter (OTC) medicines are drugs you can buy without a prescription. It is important to take medicines correctly, and be careful when giving them to children. More medicine does not necessarily mean better. You should never take OTC medicines longer or in higher doses than the label recommends. If your symptoms don't go away, it's a clear signal that it's time to see your healthcare provider.

OTC drugs containing hydrocortisone require special care.

- Cortizone-10® Hydratensive™ Eczema Lotion
- Cortizone-10® Intensive Healing Lotion Eczema
- Exederm™ Flare Control Cream
- NEOSPORIN® ECZEMA ESSENTIALS™ Hydrocortisone Anti-Itch Cream
